

Variational Analysis and Optimization Special Issue Announcement

SIAM Journal on Optimization seeks submissions for a Special Issue motivated by the September 2005 Workshop on Well-Posedness of Optimization Problems and Related Topics, held in Borovets, Bulgaria, (<http://www.math.bas.bg/wwpop/>). The main topics of interest are:

- stability, sensitivity, and well-posedness of problems in optimization, optimal control and calculus of variations;
- variational principles;
- stochastic optimization;
- vector optimization;

Papers are expected to be no longer than 20 pages. The authors should submit a cover letter and manuscript in PDF format via SIOPT's online submission site at <http://siopt.siam.org>. Please see Author Instructions on the site if you have not yet submitted a paper through this web-based system. Note the block labelled Special Section (just under the keywords block on your submission screen) and select "Variational Analysis and Optimization" from the dropdown box. Also be sure to note in the Manuscript Comment text box at the bottom of this page that your work is intended for the Special Issue.

Papers will be subject to review managed by a guest Editorial Board and Editors of SIAM Journal on Optimization.

Manuscripts submitted after the April 30, 2006, deadline may not be considered for the Special Issue at the discretion of the Guest Editor-in-Chief, Darinka Dentcheva.

If any questions, please, contact Mitch Chernoff, Publications Manager, SIAM, at chernoff@siam.org.
